

Developing English and Literacy

Over the past three years, the Aspirer Research School team have developed nationally recognised expertise for English and Literacy.

Our expertise is reflected in the outcomes for the children we work for; **Peover Superior Primary School** has achieved some of the highest outcomes in reading and writing in the region and **Ash Grove Academy** is one of only 1750 schools in the country where children eligible for FSM achieve higher than the national average.

The Aspirer Research School has been closely involved in the development of the **EEF Guidance Reports** for Literacy and English. So we are delighted to be able to bring you the full range of English and Literacy training courses from Early Years to Secondary. Have a look at our range of opportunities and come get involved!
